# INTRODUCTION

IN PRESENTING the "Constitutional Convention Book" to the various subscribers and members of the New Mexico Constitutional Convention, we do so with the knowledge that the very best within one's power has been made to make it complete and up-to-date. To bring the book to its present state of completion has been the work of over a year, and the publisher does not believe that any apologies need be offered. We have been compelled to go to press without some of the members of the convention, after vainly appealing for photographs and biographical sketches. We have finally published the book on the request of a number of subscribers who did not believe that they should be compelled to await the convenience of a very few.
